“Our Equipment is Our Reputation”

BLAIR-FUEHRER

Benchmark Automation, LLC, Athens, GA has broadened its presence in the packaging industry by acquiring Blair-Fuehrer, Inc., a manufacturer of Intermittent Motion (IM), Horizontal Form, Fill and Seal (HFFS) machinery. The purchase includes all equipment patents, designs and drawings along with an extensive parts inventory. The acquisition fits well with the company's long-term strategy to continue expanding its packaging machinery offerings.

Blair-Fuehrer, Inc. has provided used, reconditioned and newly manufactured IM packagers for over 20 years. These machines are uniquely designed to accommodate a wide range of pouch styles, including 3 and 4-sided pouches, gusseted pouches and stand-up. Any of these pouch styles can be outfitted with a reclosable zipper. The Blair-Fuehrer IM packagers surpass industry standards for flexibility, combined with state-of-the-art technology to enhance efficiency and productivity in any packaging environment. Both machines and associated filling equipment can be provided with full servo control. In addition to the machinery, Benchmark Automation will provide field service and spare parts for existing Blair-Fuehrer installations and other pouch filling machinery. Blair-Fuehrer IM packagers will be manufactured and serviced from the Benchmark Automation facility in Athens, GA.
